

WHAT IS #ILOVEBEADS?

The Beadsmith has a special program called ILOVEBEADS. It's all about promoting the beads we sell and the designers who create with them.

HOW IT WORKS

We send beads to hand-picked designers who write tutorials. You design one piece and write the tutorial which we share, royalty free for personal use, on our web sites. It's a trade—once, twice, however often you'd like.

YOU--

- Get enough beads to have plenty left over
- Keep your personal tutorial format and logo along with our logos on the cover page
- Promote your online pattern/kit site in the tutorial
- Can teach and kit what you design for us
- May request more beads to do more patterns

GETTING STARTED--

Send us a sample tutorial (with illustrations, charts, or step photos) for confidential review only, along with your web site/Etsy URL so we can see your design style and skill level.

We'll be in touch with more details after that!

Happy Beading,
Leslie Rogalski
