Elemental Colors

At our core, we resonate with nature. Our bodies are attuned to her elements, her seasons, her rhythms. We each gravitate to an element or a combination of elements. And this shows in our art. Not just in the colors we use, but also in our composition, our shapes, our style, and the content we choose to express.

Water

Water's essence is apparent in fluid, curving shapes, translucent and transparent colors, and depth of color. Passion emanates from the shimmering juxtaposition of complementary colors and the sensuous movement of many analogous tones. Emotions and feelings are important to water energy people. Colors are evocative and often inspire a depth of feeling. In the solace and depth of water, we find strength, renewal, and inspiration.
