Crystal Pearls	5810	180 pcs	3mm	Crystal Iridescent Light Blue	001 948

Supplies:

- 1 1/2" Flora Ring TierraCast® 94-3198-40
- 1 5/8" Jardin Charm TierraCast® 94-2498-40
- 4 6mm oval jump rings
- 1 1/2 whirl of memory wire
- 6# Fire line

Instructions

- Step 1: Using 6# fireline weave the crystal pearls, article 5810 into Cubic Right Angle Weave (CRAW). As show in the sample, the colors were alternated every other row. Weave to desired length. Note: once the woven piece is threaded onto the memory wire, it will shorten in length.
- Step 2: Create a simple loop onto one end of the memory wire. String the memory wire through one 5541 bead, the center of the CRAW strip, and one 5541 bead. Note: make sure the 5541's face in the opposite direction with the points facing the ends of the piece. Cut the other end of the memory wire leaving approximate 1/2" – 5/8" tail. Using this tail, create a simple loop to close the piece.
- Step 3: Attach one jump ring to the Flora ring and attach to one of the memory wire loops made in step 2.
- Step 4: Attach one jump ring to the Jardin charm and attach to the opposite memory wire loop.
