

# the **BEADSMITH**® GUIDE TO STRINGING: S-Lon thread & cord

made in the U.S.A

## S-Lon™ Beadworking Thread

**SIZE AA (TEX35) .09mm Diameter**

**SIZE D (TEX45) .11mm Diameter**

**BEADING • EMBROIDERY • LOOM WORK**

Similar to Nymo... Better Color Selection... Stronger!

S-lon™ is a nylon monocord available in 2 sizes. This parallel fiber thread will fit through a #12 beading needle. It has the feel of Nymo, but comes close to the strength of Power Pro®. This thread has almost no stretch. Sold in retail-ready tubes of 12, one color per tube, retail-ready 1 per card or choose from 3 different pre-selected color mixes.

## S-Lon™ Bead/Mac Cord (TEX210) .5mm Diameter

**STRINGING • KUMIHIMO • MACRAMÉ**

S-Lon™ bead cord is .5 mm 3-ply twisted, bonded multifilament nylon cord. Use for 6, 8, & 11/0 seed beads or other beads with at least a .8 mm hole.

Our S-Lon™ Bead Cord 4-piece color mixes are sold in colorful retail-ready blister card.

Our S-Lon Bead Cord 12-piece color mixes are sold in clamshell packaging with a colorful insert.

## S-Lon™ Heavy (TEX400)

**.9mm Diameter**

**KUMIHIMO • MACRAMÉ • TWISTED CORD MAKING**

S-Lon heavy cord is .9 mm 3-ply twisted, bonded multifilament nylon. Ideal for 6/0 seed beads in both kumihimo, macrame and twisted cord making. Sold by the retail-ready 1 per card, tube of 4 spools or box of 72 with 35 yards per spool.

## S-Lon™ Fine (TEX135)

**.4mm Diameter**

**KUMIHIMO • BEAD CROCHET • BEAD WEAVING**

S-Lon fine cord is .4 mm 3-ply twisted, bonded multi-filament nylon cord. Good for kumihimo, bead crochet and bead weaving with small beads (11/0 & 15/0).

## S-Lon™ Micro Cord (TEX70)

**.12mm Diameter**

**BEAD WEAVING • HEAVY BEAD EMBROIDERY**

S-Lon micro is .12 mm 3-ply twisted, bonded multi-filament nylon cord. Excellent for beadweaving when multiple thread passes must be made through a bead.
